Coaters & Developers

Random Robot / Stacked Modules / Any Wafer Size

www.CoaterDeveloper.com

PicoTrack is a leading manufacturer of Coater-Developer tracks suitable for semiconductor and related substrates.

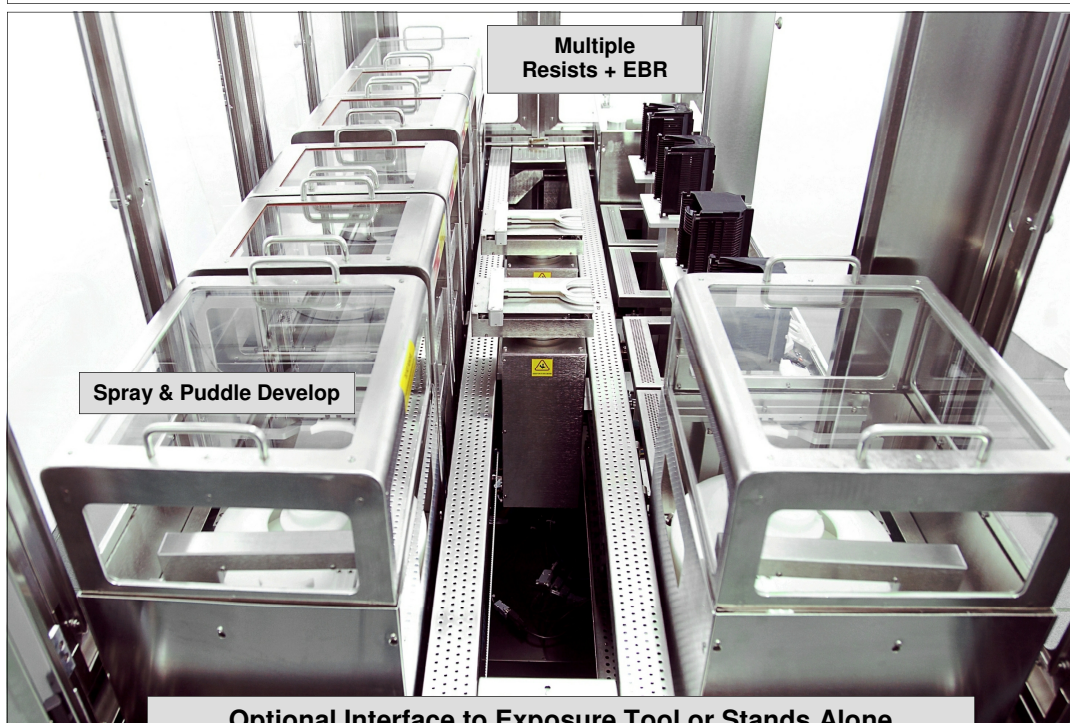

PC Based Control, Unlimited Recipes, Data Capture, Host connectivity

FEATURES:

- Versatile random access robotics
- Stacked HP/CP/VP modules
- Temperature controlled resist & developer lines
- Nicely packaged, compact design with easy service access
- PC based GUI with unlimited recipes
- SECs/GEM connectivity
- Only industry proven brand name components (Watlow, IDI, SMC, etc)
- Multiple dispenses per spin module
- POU syringe dispense option
- Air Temp & Humidity option
- Backside or proximity contact
- Reliable - Industry's best warranty!

Center mounted random access robot can skip modules for versatile processing. Dual end effector design increases throughput. Modules can be stacked for compact footprint.

Optional Interface to Exposure Tool or Stands Alone

We favor 'off the shelf' brand name components leveraging their huge installed base and tribal knowledge.

Use our optional Chemical Cabinets for seamless integration, added safety, and ease of access and management of your photolithography chemicals.
